

## **Avon Counselling & Psychotherapy Service (ACPS) Equality, Diversity & Inclusion (EDI) Policy**

ACPS operates with an explicit commitment to inclusivity and an equal opportunities policy to ensure that therapy is accessible to everyone, regardless of their background.

ACPS is committed to providing services to those who find it harder to access therapy due to their religion, race, class, disability, sexual orientation, gender identity, economic status or other reasons.

As a charity it raises funds to offer low cost, time limited therapy ensuring that economic status is not a barrier to accessing professional therapy.
